# GEL-KAYANO® 28 TECH

**SOFT**
Introduction of FLYTEFOAM™ Blast technology.

**INNOVATIVE**
Adoption of 3D SPACE CONSTRUCTION™.

**PROTECTIVE**
Full ground contact for stability.

# GEL-KAYANO® 28

The shoe's engineered mesh upper offers a supportive foothold and better breathability throughout the interior while providing a softer feel across the top of the foot. Reinforced with a lower-profile external heel counter to increase heel stability, this component also offers a better rearfoot fit.

We integrate a DYNAMIC DUOMAX™ support system on the inside of the midsole to improve stability and keep the foot from rolling inward too much (overpronate) when the foot reaches mid-stance. Building on its long-standing stability traits, designers evolved the tooling with gender-specific 3D SPACE CONSTRUCTION™ technology that helps runners compress the foam more appropriately and experience a more stable ride.

Featuring our FLYTEFOAM™ Blast cushioning material for a more energetic rebound during the toe-off stage, we also redesigned the shape of the GEL® technology unit and heel bevel. The result yields better heel balance and lower deceleration values to keep you focused on maintaining your speed. Complemented with a full-ground contact outsole design, this application helps runners distribute their weight more evenly during landings to create a smoother roll throughout their gait.

DYNAMIC DUOMAX
GEL-KAYANO 28
FF BLAST

# GEL-KAYANO® 28 AWL

Featuring a water-resistant upper and added reflective accents for improved visibility when running in low-light conditions, this shoe is also complemented with a toggle speed lace system. Reinforced with a lower-profile external heel counter to increase heel stability, this component also offers a better rearfoot fit. Additionally, the outsole provides better grip in cold and wet conditions thanks to its snow rubber and lug configuration.
We integrate a DYNAMIC DUOMAX™ support system on the inside of the midsole to improve stability and keep the foot from rolling inward too much (overpronate) when the foot reaches mid-stance. Building on its long-standing stability traits, designers evolved the tooling with a gender-specific 3D SPACE CONSTRUCTION™ feature that helps runners compress the foam more appropriately and experience a more stable ride.
Featuring our FLYTEFOAM™ Blast cushioning material for a more energetic rebound during the toe-off stage, we also redesigned the shape of the GEL® technology unit and heel bevel. # GEL-NIMBUS® 23

The GEL-NIMBUS® 23 running shoe continues to offer excellent comfort and long-run impact absorption. Its improved stability provides a more balanced stride that's followed by smoother transitions.
Constructed with comfort and breathability in mind, this shoe features a softer engineered mesh design for long runs. Engineered eyelet shaping helps the upper move more naturally with the foot, while a stretchy midfoot panel appropriately hugs the foot to generate better flexibility. Additionally, the shoe's upper is made with recycled materials to reduce waste and carbon emissions.
Providing the runner with excellent shock absorption and softness, the GEL-NIMBUS® 23 delivers more compression in the heel thanks to its softer GEL® technology cushioning unit and contoured design lines. Also, a gender-specific TRUSSTIC™ system provides an articulated amount of support in the right direction for men and women to help generate a smooth transition.
The inclusion of gender-specific pillars in the midsole help cushion the body and allow runners experience a softer feel. Simultaneously, the ORTHOLITE™ X-55 sockliner equips runners with a forgiving, yet responsive stride.
The components of the GEL-NIMBUS® 23 shoe help increase the softness without forgoing the integrity of the shoe's ride. Our 23rd version of the GEL-NIMBUS® continues to make advancements within the lineage by offering improved support and comfort for distance runners.

# GEL-NIMBUS® 23 KNIT

Constructed with comfort and breathability in mind, the upper features a soft knit design for long runs. Engineered eyelet shaping helps the upper move more naturally with the foot, while a stretchy midfoot panel appropriately hugs the foot to generate better flexibility.

Providing the runner with excellent shock absorption and softness, the GEL-NIMBUS® 23 Knit delivers more compression in the heel thanks to its softer GEL® technology cushioning unit and contoured design lines. This combination creates a more accommodating fit and feel. Additionally, a gender-specific TRUSSTIC™ device provides an articulated amount of support in the right direction for men and women to help generate a smooth transition. Under the toe, the inclusion of gender-specific pillars help cushion the body and help runners experience a softer feel. Simultaneously, the ORTHOLITE™ X-55 sockliner equips runners with a forgiving, yet responsive stride.

The components of the GEL-NIMBUS® 23 Knit shoe help increase the softness without forgoing the integrity of the shoe's ride. For over two decades, the GEL-NIMBUS® franchise has established itself as a neutral running shoe with excellent cushioning. The 23rd version of the GEL-NIMBUS® continues to make advancements within the lineage by offering improved support and comfort for distance runners.

# GT-2000® 9

For nearly 30 years, the GT-2000® series has been the stability shoe of choice for various sorts of runners, ranging from casual weekend warriors to top marathon finishers. If you're looking for a lightweight, cushioned running shoe to help support your foot, the GT-2000® 9 model is an excellent choice.

The fit of the ninth incarnation of the GT-2000® running shoe has been improved with a one-piece mesh construction for an improved fit over the top of the foot. This new upper material has been reinforced in key areas for added support as the foot rolls through the gait cycle.

This added stability comes from three different technologies that support the foot while setting it up for an efficient toe-off.

**FEATURES**

One-piece mesh construction
**GEL®** technology cushioning
**FLYTEFOAM™** technology cushioning

# GT-2000® 9 KNIT

For nearly 30 years, the GT-2000® series has been the stability shoe of choice for runners ranging from casual weekend warriors to top marathon finishers. If you're looking for a lightweight, cushioned running shoe to help support your foot, the GT-2000® 9 Knit model is an outstanding choice.

Designed with a one-piece knit upper construction for improved fit, the ninth incarnation of the GT-2000® running shoe secures the top of the foot with enhanced styling. The knit materials on the upper have been reinforced in targeted areas for added support as the foot rolls through the gait cycle, delivering a more efficient toe-off and secure fit.

**FEATURES**

Knit mesh upper
**GEL®** technology cushioning
**FLYTEFOAM™** technology cushioning

# GT-2000® 10 TECH

**SOFTER**
New tooling with more stack and FLYTEFOAM™ Propel forefoot, knit upper.

**STABLE & PROTECTIVE**
New LITETRUSS™ Propel technology.

**SMOOTH**
3D SPACE CONSTRUCTION™, full ground contact, 8mm offset.

# GT-2000® 10

Lightweight comfort and a supportive foothold are two characteristics this shoe has become known for, so we wanted to preserve those features while implementing a new engineered knit upper. This technical knit design provides excellent breathability to keep feet cool, while the 3D print application offers a more locked-in feel.

The cushioning material transitions from FLYTEFOAM™ technology to our FLYTEFOAM™ Propel material, which generates a more responsive bounceback during tempo runs or at the later stage of your long run. Retaining its familiar GEL® technology cushioning unit in the heel and forefoot to generate excellent shock absorption, the shoe also implements gender-specific 3D SPACE CONSTRUCTION™ technology to improve compression at foot strike.

Engineered with a full-ground contact outsole geometry, the GT-2000® 10 shoe forgoes the traditional TRUSSTIC™ support system and replaces it with LITETRUSS™ technology to improve medial support and midfoot integrity.

**FEATURES**

Engineered knit upper
**GEL®** technology cushioning
**FLYTEFOAM™** technology cushioning
**FLYTEFOAM™ Propel** technology cushioning
**3D SPACE CONSTRUCTION™**
**LITETRUSS™** technology
**ORTHOLITE™** X-30 sockliner

# GEL-CUMULUS® 23 G-TX

The GEL-CUMULUS® 23 shoe's focus is to provide an even smoother and softer ride while implementing gender tailored technology in the men's and women's models. This version is also complemented with a GORE-TEX™ upper to help keep feet dry in wet conditions.
Wrapping the foot with an even softer feel, the engineered mesh upper adds strategic support in targeted areas while leaving some of the fibres more open to improve flexibility. The upper also works more closely with the midsole's movement, which creates a smoother stride from foot strike to toe-off.
To improve cushioning and flexibility, we added a 3D SPACE CONSTRUCTION™ feature to the top layer of the midsole. This technology is implemented through a series of strategically planted pillars within the midsole, allowing runners to experience more compression in a specific area without reducing durability or stability. These pillar formations are tuned differently in the men's and women's models to address each gender's biomechanical data. By helping runners appropriately compress the foam during the landing phase of their stride, this shoe promotes a smoother ride and improves shock absorption.
Lastly, a softer GEL® technology unit is positioned under the heel and forefoot to improve cushioning while the FLYTEFOAM™ midsole material helps create a smoother and more supportive ride.

**FEATURES**

# GEL-CUMULUS® 23 AWL

The GEL-CUMULUS® 23 AWL (All Winter Long) shoe's focus is to provide an even smoother and softer ride while implementing gender tailored technology in the men's and women's models.
Featuring a water-resistant upper and added reflective accents for improved visibility when running in low-light conditions, this shoe is also complemented with a toggle speed lace system. The upper also works more closely with the midsole's movement, which creates a smoother stride from foot strike to toe-off. Additionally, the outsole provides better grip in cold and wet conditions thanks to snow rubber and the lug configuration.
To improve cushioning and flexibility, we added a 3D SPACE CONSTRUCTION™ feature to the top layer of the midsole. This technology is implemented through a series of strategically planted pillars within the midsole, allowing runners to experience more compression in a specific area without reducing durability or stability. These pillar formations are tuned differently in the men's and women's models to address each gender's biomechanical data. By helping runners appropriately compress the foam during the landing phase of their stride, this shoe promotes a smoother ride and improves shock absorption.
Lastly, a softer GEL® technology unit is positioned under the heel to improve cushioning while the FLYTEFOAM™ midsole material helps create a smoother and more supportive ride.

# GEL-CUMULUS® 23

The GEL-CUMULUS® 23 trainer is now tailored with greater detail to match your running style all while keeping its smooth ride and soft cushioning that serve as the foundation of the shoe's design. With the addition of gender tailored technology, this shoe's engineered mesh pattern and 3D print holding areas wrap your foot anatomically for a more comfortable fit and feel.

To improve cushioning and flexibility, we have added a 3D cloud construction to the top layer of the midsole. This technology is implemented through a series of pillars that are specifically implemented within the FLYTEFOAM™ midsole to help runners appropriately compress the foam during the landing phase for a smoother ride with enhanced cushioning. Delivering better shock absorption during the landing of your stride, each midsole is designed separately to better match the compression rates for men and women. These additions to the GEL-CUMULUS® series see the trusted franchise providing even more confidence on each run.

Day after day, the GEL-CUMULUS® 23 shoe will offer soft cushioning and a responsive stride as you fly through the miles.

# GEL-CUMULUS® 23 KNIT

The GEL-CUMULUS® 23 Knit shoe's focus is to provide an even smoother and softer ride while implementing gender tailored technology in the men's and women's models.
Wrapping the foot with an even softer feel, the MONO-SOCK™ upper construction adds strategic support in targeted areas while also providing a soft and comfortable foothold. The upper also works more closely with the midsole's movement, which creates a smoother stride from foot strike to toe-off.
To improve cushioning and flexibility, we added a 3D SPACE CONSTRUCTION™ feature to the top layer of the midsole. This technology is implemented through a series of strategically planted pillars within the midsole, allowing runners to experience more compression in a specific area without reducing durability or stability. These pillar formations are tuned differently in the men's and women's models to address each gender's biomechanical data. By helping runners appropriately compress the foam during the landing phase of their stride, this shoe promotes a smoother ride and improves shock absorption.
Lastly, a softer GEL® technology unit is positioned under the heel and forefoot to improve cushioning while the FLYTEFOAM™ midsole material helps create a smoother and more supportive ride.

# GT-1000® 10

The 10th anniversary of the ASICS GT-1000® running shoe takes a big step forward in what this model stands for. The previous edition set the stage in providing intrinsic value with the midsole, allowing this update to focus on the upper.

The upper has been reimagined to provide a richness never before seen in a GT-1000® shoe. With the addition of an engineered mesh construction and an integrated support system, the GT-1000® 10 model is in a class of its own. In addition to these new features, runners will also experience GEL® technology cushioning and a lightweight FLYTEFOAM™ midsole to improve the cushioning in your step as you fly through the miles.

**FEATURES**

**FLYTEFOAM™** technology cushioning
Rearfoot **GEL®** technology cushioning
**DUOMAX®** technology
**AHARPLUS™** heel plug

# COMPETE

# MAGIC SPEED™ TECH

**SPEED**
Coming in at 8oz on the men's side, with an asymmetric carbon plate and ultra breathable engineered mesh upper, the MAGIC SPEED™ evolved upon METARACER™ to be the ultimate in lightweight protection.

**PLATE + BLAST**
Superior bounce via full length FLYTEFOAM™ Blast technology, in tandem with the propulsion carbon plate, give a propulsive, efficient ride.

**TRAINER/RACER**
Taking the learnings of the METARACER™ down to $200, while broadening the runner opportunity with a higher stack height and plush cushioning underfoot, delivers a shoe that can take the everyday runner marathon distance.

# MAGIC SPEED™

The MAGIC SPEED™ running shoe is made for runners looking to get the most out of their running, training, and racing. GUIDESOLE™ technology in the midsole is combined with an asymmetric carbon forefoot plate to help propel your foot forward to create a rolling sensation throughout your run.

Typically, when you add more foam, you add more weight. However, when you incorporate the characteristics of FLYTEFOAM™ Blast technology, weight is reduced while adding increased shock absorption and responsiveness.

We have engineered the MAGIC SPEED™ shoe with 29mm of FLYTEFOAM™ Blast technology under your heel and approximately 24mm under your forefoot. As a result, your body will not have to absorb as much impact as it would if you wore a shoe that's lower to the ground.

**FEATURES**

Engineered mesh upper

A lightweight asymmetric carbon plate runs from the midfoot forward to add structure and improve toe-off propulsion

**GUIDESOLE™** technology helps conserve energy

**FLYTEFOAM™** Blast technology cushioning

**AHAR®** rubber outsole

# GEL-DS TRAINER™ 26

Updated with a soft and flexible knit upper, this application helps the shoe move more naturally with the runner's foot. Accented with a series of reflective details, this design element is practical for runners who are training in low-light conditions. Following a more sustainable design approach, this shoe also uses fewer resources to colour the sockliner.

Additionally, the PROPULSION TRUSSTIC™ technology creates a powerful lever to propel your stride. Functional for overpronators, the shoe's DUOMAX® technology on the medial side of the midsole helps reduce the foot's pronounced inward roll and improves support.

GEL® technology cushioning improves shock absorption, while the FLYTEFOAM™ midsole material provides a soft and supportive feel from foot strike to toe-off. Formulating a smoother transition throughout your stride, this shoe is also complemented with an AHARPLUS™ heel plug to improve durability and expand its lifespan.

# HYPER SPEED™

The HYPER SPEED™ shoe is a lightweight and smooth racing flat that incorporates philosophies found in our MAGIC SPEED™ shoe. This modern flat is ready to tackle a range of distances and get you to the finish line faster all while using less energy than our previous iterations.

The exaggerated toe spring and higher stack height are combined to help provide energy saving benefits for your tempo workouts or races. Additionally, the lightweight and breathable mesh upper will help keep you cool and dry. This racing flat features a versatile design that's functional for someone looking to run fast without breaking the bank.

**FEATURES**

**INNOVATIVE FOAM SETUP**
FLYTEFOAM™ Blast technology / FLYTEFOAM™ | Pebax Cradle.

**KEY VISUAL TECH**
Rearfoot & forefoot viz GEL® technology.

**PREMIUM FINISHES**
Luxurious circular knit upper.

# GEL-KINSEI® BLAST

This performance trainer is the big brother to the GEL-NIMBUS® series and the NOVABLAST™ offerings, so we wanted to equip the hero of our cushioning silo with advanced shock absorption that's followed up with plenty of zip at the toe-off stage.

The original GEL-KINSEI® inspiration stems from a samurai's armor that shields the body while allowing it to move freely. A similar application translates onto this version as well, featuring a circular knit upper that offers strategic midfoot support.

Layered with GEL® technology cushioning in the heel and forefoot, this shoe also implements our lightweight FLYTEFOAM™ Blast midsole material to provide a responsive and bouncy ride. The Pebax plate is sandwiched in the centre of the midsole, which helps redirect a runner's energy forward to give them a more energized pop in their stride. Additionally, the engineered outsole rubber is designed to help the shoe remain lightweight while generating advanced grip, durability, and a propulsive toe-off.

**FEATURES**

# NOVABLAST™ 2 TECH

**DESIGN & BOUNCE**
Push the design envelope & maintain bounce.

**GUIDANCE**
Increased stability & lockdown.

**IMPROVED UPPER**
Double jacquard mesh.

# NOVABLAST™ 2

Our design team kick-started the design process for the NOVABLAST™ 2 running shoe off by revisiting the bouncy properties of the first version and modifying the shoe's construction to make them even more pronounced.

The double engineered jacquard mesh upper is paired with stretch properties that provide improved airflow and an excellent fit. This shoe is also reinforced with a TPU heel stabilizer to increase rearfoot support.

Additionally, we evolved the shape of the tooling and equipped it with better deformation properties to improve compression at foot strike and the rebound at toe-off.

**FEATURES**

Double engineered jacquard mesh upper
TPU heel stabilizer
Gusseted tongue wing fit system
Trampoline inspired outsole design
**FLYTEFOAM™** Blast technology cushioning
**AHARPLUS™** outsole

# DYNABLAST™ 2 TECH

**BOUNCE**
Full length FLYTEFOAM™ Blast midsole providing a light, cushioned, propulsive ride. Geometry of midsole takes inspiration from the NOVABLAST™.

**IMPROVED UNDERFOOT EXPERIENCE**
Stack height and drop were lowered to offer more stability while performing in a variety of workouts.

**FLATTERING & FUNCTIONAL UPPER**
Breathable circular knit upper provides support where needed and offers a stylish finish.

# DYNABLAST™ 2

Recommended for runners who want a soft, yet responsive underfoot experience during their run, we fine-tuned the underfoot experience between this model and the previous one to pronounce this effect even further.

Featuring a circular knit upper that results in fewer overlays, this material offers a lightweight feel with excellent breathability. This application's engineering also delivers targeted support in the midfoot to create a more locked-in feel.

The FLYTEFOAM™ Blast cushioning material creates a springy softness that generates a trampoline-like effect as you run. Our design team lowered the drop height to 8mm between the heel and forefoot, equipping runners with a more energized bounceback and inherently stable platform, while the wider base nets in the outsole are designed to improve your balance during the landing phase of your gait.

**FEATURES**

Circular knit upper
Underfoot cutouts
**FLYTEFOAM™** Blast technology cushioning
**ORTHOLITE**™ X-30 sockliner

# VERSABLAST™ MX TECH

**ENERGETIC AESTHETIC**
Updated design cues in mesh & graphics continue to make this the most accessible option in the BLAST BEYOND™ series.

**SUPPORT & COMFORT**
Continuation of half MONO-SOCK™ construction which offers support and comfort while keeping a clean silhouette.

**LIGHTWEIGHT DURABILITY**
Soft E.V.A midsole provides underfoot comfort. Outsole design minimizes weight while remaining durable.

# VERSABLAST™ MX

The lightweight VERSABLAST™ MX running shoe is built to provide excellent underfoot comfort, whether you're on a run or at the gym.

Drawing inspiration from the NOVABLAST™ heel graphics and stripe design, this shoe's upper also features a half-bootie construction that promotes a great fit and all-day comfort. Additionally, this offering is designed to offer a soft underfoot feel and a springy midsole foam to create a smooth ride.

This shoe's outsole design also minimizes weight while remaining durable, thanks to the rubber placed in high-wear areas. If you're looking for a shoe with a great fit and streamlined aesthetic, the VERSABLAST™ MX model is an excellent choice.

**FEATURES**

Soft midsole cushioning
Half-bootie construction

# GEL-EXCITE™ 8 AWL

The GEL-EXCITE™ 8 AWL (All Winter Long) running shoe is a water resistant variation that's accented with added reflectivity to run in low-light conditions.

The last is paired with a moulded heel section that keeps your foot more centered on the shoe's platform—offering an even better fit than the previous shoe in the series. Designed to provide excellent durability, the upper is met with no-sew overlays that increase support while reducing the overall weight.

This style offers improved comfort, featuring rearfoot GEL® technology cushioning, an AMPLIFOAM™ midsole, and an ORTHOLITE™ sockliner to create a soft and comfortable feeling underfoot. Equipped with a GUIDANCE LINE™ technology, this helps the foot experience a more natural and consistent stride.

Lastly, an injection rubber outsole adds lightness and improves durability, while the strategically placed flex grooves are more flexible when you're running or wearing casually throughout the day.

**FEATURES**

No-sew overlays improve support
Water resistant upper helps repel water and keep feet dry
Reflective accents improve visibility in low-light conditions
**AMPLIFOAM™** technology cushioning
**GEL®** technology cushioning
**ORTHOLITE™** sockliner
**GUIDANCE LINE™** technology

# GEL-EXCITE™ 8

The GEL-EXCITE™ 8 running shoe is a versatile pair for the runner on the go. A newly updated silhouette gives this shoe a younger and faster look. This style offers enhanced comfort, with rearfoot GEL® technology cushioning, a new AMPLIFOAM™ midsole, and an ORTHOLITE™ sockliner all combining for a soft and comfy feeling underfoot.

Additionally, the last is paired with a molded heel section that keeps your foot more centered on the shoe's platform—offering an even better fit than the previous shoe in the series. Overall, the GEL-EXCITE™ 8 provides excellent comfort whether you are running five miles or running errands around town.

**FEATURES**

**AMPLIFOAM™** midsole technology cushioning
**GEL®** technology cushioning
**ORTHOLITE™** sockliner

# GEL-CONTEND™ 7

The GEL-CONTEND™ 7 running shoe provides excellent cushioning and support for runners and anyone with an active lifestyle. Its traditional construction offers a more neutral fit that rests on a stable foundation. The reliable cushioning stems from rearfoot GEL® technology, an AMPLIFOAM™ midsole, and an ORTHOLITE™ sockliner that come together for improved comfort. Additionally, a solid rubber outsole and stitched-down toe reinforcement increases durability while the breathable athletic mesh offers better airflow.

**FEATURES**

**GEL®** technology cushioning
**GUIDANCE LINE™** technology improves
Flex grooves in the outsole improve flexibility

# JOLT™ 3

Run and walk in comfort with the new JOLT™ 3 shoe. This shoe combines a soft E.V.A midsole with a solid rubber outsole for improved durability. Drawing inspiration from our longstanding GT series, this trainer offers classic styling and a great fit.

To make this edition even softer and move with your foot better on the run, we have engineered more flex grooves in the midsole and outsole. The upper is reinforced with stitch down overlays to keep your foot more secure on the platform. Lastly, a more accommodating forefoot fit and a soft ORTHOLITE™ sockliner will help keep you comfortable throughout the day.

**FEATURES**

Flexible mesh upper
Synthetic stitching on the overlays

AW21 | ASICS CANADA

# TRAIL

asics®

# TRABUCO™ MAX

GUIDESOLE™ technology is a sole construction that consists of a stiff forefoot and a responsive toe spring that's scientifically proven to save energy over the long run.

We have incorporated ASICSGRIP™ technology in the outsole. This rubber compound is functional for providing traction, especially amongst wet and slippery conditions. Incorporated into the ASICSGRIP™ outsole, we applied an uphill and downhill lug pattern for improved agility when navigating varying topography.

Adding 28mm of FLYTEFOAM™ technology under the heel and 23mm under the forefoot, this shoe provides excellent cushioning. Because of the high stack height, stones and roots will be better absorbed by the midsole. The combination of a smooth forward rolling motion, improved cushioning, and better traction makes the Trabuco™ MAX shoe a great training partner for a variety of trail running workouts.

**FEATURES**

**GUIDESOLE™** technology

# GEL-TRABUCO™ 9 G-TX

The GEL-Trabuco™ 9 G-TX shoe has been re-engineered from top to bottom to assert itself as an all-around trail pioneer. Durable and comfortable are the two terms that best describe this trail running shoe.

Its ruggedness comes from the lugged outsole pattern that's made from ASICSGRIP™ rubber. This rubber is excellent when covering a variety of terrain but is most functional in slippery trail conditions. The uphill and downhill lug pattern on the lateral and medial side of the shoe provide specific traction for undulating terrain.

The advanced comfort comes from the FLYTEFOAM™ midsole material coupled with GEL® technology cushioning in the heel. Up top, the more accommodating last improves the fit through the forefoot. Additionally, the updated version of our trail shoe is complemented with a GORE-TEX™ upper to help keep feet dry in wet conditions.

FlyteFoam

# FUJILITE™ 2 TECH

**FAST**
A slim profile and porous detailing.

**NATURAL**
Organically derived midsole materials.

**ADADTABLE**
ASICSGRIP™ and lugs for traction.

# FUJILITE™ 2

Inspired by the Hinoki Cypress tree that's native to Mt. Fuji and its adaptable environment, the FUJILITE™ 2 shoe is designed for trail runners who want a combination of speed and advanced traction for off-road surfaces.

The soft engineered mesh upper uses natural origin materials that provide excellent comfort and breathability throughout the shoe's interior, while its durable design helps protect feet against abrasions from rocks and roots. Additionally, the lace garage allows you to tuck the shoelaces away conveniently.

Following a more sustainable design approach, the reshaped FLYTEFOAM™ midsole compound is formed with recycled materials that generate a lightweight feel and better shock absorption. To make this shoe more adaptable to handle the trail's unexpected conditions, we opened up the outsole windows to improve the midsole's flexibility. The outsole lugs were also configured to create a better bite with the ground and increase traction on muddy or loamy surfaces.

**FEATURES**

The shoe's upper is made with recycled materials to reduce waste and carbon emissions
Engineered mesh upper
Lace garage tongue
**FLYTEFOAM™** technology cushioning

# GEL-SONOMA™ 6 G-TX

Taking inspiration from the ASICS trail running family, this shoe is a versatile offering that's functional for trail runs, light hiking, and other outdoor adventures. Additionally, the updated version of our trail shoe is complemented with a GORE-TEX™ upper to help keep feet dry in wet conditions.

Featuring a new last design, this model provides a more accommodating forefoot fit, while the wider toebox allows toes to spread out. Underfoot comfort stems from a full-length AMPLIFOAM™ midsole and GEL® technology cushioning unit that's placed exactly where runners need impact absorption the most. To increase the softness with every step, we've included an ORTHOLITE™ sockliner for excellent comfort.

All of these comfort components are complemented by durable properties, such as the solid rubber outsole—making this shoe a versatile choice for the trails.

**FEATURES**

**GORE-TEX™** upper
**AMPLIFOAM™** technology cushioning
**GEL®** technology cushioning

GEL-EXCITE TRAIL
AmpliFoam

# GEL-EXCITE™ TRAIL TECH

**ALL TERRAIN COMFORT**
Internal GEL® technology , AMPLIFOAM™ midsole, and ORTHOLITE™ sockliner offer all day comfort while the multi directional outsole provides traction and grip from road to trail.

**UPPER VERSATILITY**
Repeat mesh upper protects against the elements while still providing breathability.

**OUTDOOR UTILITY**
Subtle re-imagined camo print on midfoot and heel, exposed stitching, and a 2-tone lace.

# GEL-EXCITE™ TRAIL

Geared for navigating off-road terrain, the GEL-EXCITE™ TRAIL shoe is a versatile offering for trail runners and adventure seekers. It is a new franchise in the GEL-EXCITE™ series, featuring a series of utility details for the outdoors.

Besides a consumer favourite camouflage design, this shoe features a durable upper design and supportive overlays that keep your feet more stable when traversing across varying topography.

Layered with AMPLIFOAM™ technology in the midsole, this shoe is designed to create a comfortable lay down at foot strike and better durability to resist the trail's hard-wearing elements. Meanwhile, the outsole is constructed with a rugged traction pattern that provides an excellent grip on off-road surfaces.

# KIDS

# GT-1000® 10

Built with a durable design to handle kids' everyday activities that span from the school yard to the playground, the GT-1000® GS (Grade School) shoe seeks inspiration from our performance running line.

Formed with a mesh upper construction, this shoe helps improve airflow to keep feet cool, while the removable sockliner is accented with a printed toe line so that kids and parents can check to confirm that the shoes are the right size.

The midsole unit is layered with a combination of E.V.A foam and GEL® technology cushioning that delivers a more responsive stride and improved shock absorption. Additionally, the outsole is paired with a stitched toe rubber and a solid rubber compound for improved durability.

**FEATURES**

Mesh upper

# GEL-NOOSA TRI™ 13

Drawing design cues from our flagship triathlon shoe, the GEL-NOOSA™ TRI 13 GS (Grade School) style channels the same energetic colour blocking, along with a technical design and componentry.

Featuring a mesh upper to increase airflow that helps keep feet cool, this shoe's vibrant colourway is combined with a series of bold "NOOSA™" graphics.

Injected with improved comfort in the midsole, thanks to the E.V.A midsole foam and increased flexibility in the forefoot, this shoe also incorporates a stitched toe rubber and rubber outsole compound for improved durability.

**FEATURES**

Mesh upper
**GEL®** technology cushioning
E.V.A midsole cushioning

# GEL-EXCITE™ 8

Restructuring the aesthetic of the GEL-EXCITE™ 8 GS (Grade School) shoe, this offering takes on design inspiration from our GEL-CUMULUS® 23 style from our performance running line. Additionally this style provides a wide fit for young feet that require more room in their footwear.

Featuring a mesh upper with a fun pattern throughout, this shoe offers excellent breathability with fewer overlays to help reduce irritation in the forefoot. The E.V.A technology in the midsole offers excellent comfort and a responsive stride, while the full rubber outsole and stitched toe rubber deliver improved durability.

# GEL-VENTURE™ 8

The GEL-VENTURE™ 8 GS shoe draws inspirations from our performance trail running offerings, like the GEL-FUJITRABUCO™ 8 style's upper and tooling. This GS (Grade School) offering is a kid's specific style that's designed to help promote outdoor protection, featuring a layered stitch down construction and reinforced toe panelling for excellent comfort. This shoe has also been designed with a multi-surface grip that incorporates a lugged outsole pattern for better traction on an array of terrains.

The GEL-VENTURE™ 8 PS running shoe model has been updated with a more accommodating forefoot fit, while reducing the number of overlays around the forefoot without sacrificing durability.

Lastly, the outsole is more durable, with a traction pattern that's been re-engineered with strategically placed lugs under the heel. These updates make the new GEL-VENTURE™ 8 PS shoe an excellent companion for your little one's outdoor adventures.

**FEATURES**

**GEL®** technology cushioning

Re-engineered lugs in the outsole for better traction on off-road surfaces

# TENNIS FOOTWEAR

# COURT FF™ NOVAK

Novak Djokovic's signature COURT FF™ Novak limited model tennis shoe celebrates the city of Tokyo with a festive colour scheme. Additionally, this style is loaded with technical features that promote a blend of lightweight stability and cushioning. A combination of mesh and PU (polyurethane) panelling on the upper delivers an adaptable fit with better airflow and stability. Equipped with our PGUARD™ technology in the toe and medial angles, this application supports better protection when playing on hard court surfaces.

The shoe's FLYTEFOAM™ midsole delivers a more responsive step and premium underfoot comfort, while the strategic placement of GEL® technology in the forefoot and rearfoot delivers advanced cushioning during harsh landings. The rigidity of the midfoot TRUSSTIC™ technoloy increases stability when covering the court and reduces unnecessary twisting to help you stay locked into your swing.

Additionally, we've added a removable ORTHOLITE™ sockliner to improve the overall cushioning experience, while its moisture management properties keep feet comfortable throughout the match. Designed with greater durability, the AHAR® outsole is constructed with a hard-wearing rubber compound that resists breakdown against high-contact areas on court.

**FEATURES**

PU panelling on the upper
**FLYTEFOAM™** technology cushioning
**GEL®** technology cushioning
**TRUSSTIC™** technology

# GEL-RESOLUTION™ 8

The GEL-RESOLUTION™ 8 tennis shoe promotes a responsive stride with a close-to-the-court feel.

The FLEXION FIT™ upper provides form-fitting support with the integration of DYNAWALL™ technology, which offers added midfoot stability during lateral movements and coast-to-coast coverage. Implementing a torque control feature in the heel counter, this shoe is also designed to help maintain a locked-in feel during quick transitions.

Renowned for its signature GEL® technology in the heel and midfoot, this shoe significantly reduces the impact of shock from abrupt stop and go movements on court. Additionally, the model also incorporates an AHAR® compound in the outsole that works in conjunction with the PGUARD™ toe protector to increase traction on court, while reducing the overall level of wear.

**FEATURES**

Recycled upper materials
Removable sockliner
**PGUARD™** toe protector
**DYNAWRAP™** construction
**AHAR®** outsole
**GEL®** technology cushioning
**DYNAWALL™** technology

# COURT FF™ 2

The shoe's FLYTEFOAM™ midsole will help put a spring in your run - it's an advanced formulation that responds to the energy of your jumps. There's also GEL® technology in the front and back of the shoe, cushioning your landings so you can reach up for that killer smash. The SOLYTE™ insole also improves your bounceback, as well as helping the shoe last well. And because comfort is key, we've fitted the COURT FF™ model with a MONO-SOCK™ fit that makes it easy to put on and wear.

We've added a removable ORTHOLITE™ sockliner, which helps with bounce and moisture management, while the TRUSSTIC SYSTEM™ technology under the mid-foot makes the shoe nice and stable too.

There's a tennis AHAR® outsole. This highly resistant rubber compound helps reduce wear on the parts of the shoe which make lots of contact with the ground.

**FEATURES**

**FLYTEFOAM™** technology cushioning
**AHAR®** outsole
**MONO-SOCK™** heel collar
**TRUSSTIC SYSTEM™** technology
**GEL®** technology cushioning
Removable **ORTHOLITE™** sockliner

# SOLUTION SPEED™ FF 2

The SOLUTION SPEED™ FF 2 model features a PU (polyurethane) application on the upper that helps generate better support, flexibility, and an improved fit. Implementing DYNAWRAP™ technology into the eyelet stay, this application helps provide more stability in the forefoot during side-to-side movements.

TWISSTRUSS™ technology in the midsole assists players who are regularly moving from the baseline to the net by improving their cutting motions and quick transitions; providing a faster acceleration period between stops to full-sprints.

Recognizing that the first step is usually the most important step during a point, we've also molded a new outsole design that offers better traction in the heel, forefoot and the toe section to help deliver faster forward transitions.

**FEATURES**

**DYNAWRAP™** technology
**FLYTEFOAM™** technology cushioning
**FLYTEFOAM™ Propel** technology cushioning

# GEL-CHALLENGER™ 13

The GEL-CHALLENGER™ 13 tennis shoe provides a comfortable fit with soft underfoot cushioning.

Created for tennis athletes who are moving coast to coast on the baseline, this shoe is equipped with our WINGWALL™ technology placed in the sidewall of the midsole to improve stability during lateral movements. Offering a flexible feel in the forefoot area, this midsole also implements GEL® technology cushioning to improve shock absorption.

The shoe's removable ORTHOLITE™ sockliner creates comfortable step-in comfort, delivering an added rebound effect and moisture management properties. Designed for durability, the GEL-CHALLENGER™ 13 shoe also has a wrap-up outsole and a PGUARD™ toe protector around the forefoot's medial side to provide better resistance against wear in high-contact areas.

# GEL-GAME™ 8

Both durable and comfortable, the GEL-GAME™ 8 tennis shoe is versatile for the recreational athlete who's playing several times per week.

Featuring an open mesh design on the upper to improve airflow and keep feet cool, this shoe is complemented with synthetic leather overlays and a PU (polyurethane) film that offers improved stability when making abrupt transitions.

The TRUSSTIC™ technology in the midsole generates better stability on the court, while the new tooling combines an E.V.A midsole foam with GEL® technology cushioning in the forefoot to increase shock absorption.

Additionally, the improved outsole offers enhanced flexibility and a more durable design. Both breathable and supportive, the GEL-GAME™ 8 tennis shoe is an excellent choice for beginner to mid-level players seeking a cushioned and stable tennis shoe.

**FEATURES**

**TRUSSTIC™** technology
**GEL®** technology cushioning

# GEL-DEDICATE™ 7

The GEL-DEDICATE™ 7 tennis shoe is a recommended choice for tennis athletes playing on a hobby basis. Building off the DNA of our GEL-RESOLUTION™ 8 shoe, this offering is designed to offer excellent stability and durability.

The upper is constructed with synthetic leather overlays around the toe area as a reinforcement that helps protect against the foot drag that may occur during serves or slides.

A layer of GEL® technology cushioning is positioned in the shoe's forefoot to provide cushioning and comfort. Meanwhile, the TRUSSTIC™ support unit and wrap-up outsole offer flexible stability during lateral movements on the court.

# SKY ELITE™ FF MT 2

The SKY ELITE™ FF MT 2 volleyball shoe is designed to help athletes experience powerful jumps and responsive cushioning.

We took inspiration from the METARISE™ volleyball shoe for this version and mirrored its curved heel design to help players cut-in more smoothly when setting up for the spike. The midsole integrates TWISTRUSS™ technology to increase jumping force. This technology also works in conjunction with the wider lateral forefoot gauge and DYNAWRAP™ lacing component to experience better stability when braking by helping athletes transfer horizontal power into vertical power to reduce power loss during jumps.

Constructed for indoor courts, this mid-top volleyball shoe incorporates our FLYTEFOAM™ Propel technology and a thicker midsole to generate a responsive bounceback and improved shock absorption. Additionally, the shoe also features wider flexion grooves in the outsole for better flexibility.

# NETBURNER BALLISTIC™ FF MT 2

The NETBURNER BALLISTIC™ FF MT 2 shoe evolves the GEL-NETBURNER™ lineage even further with advanced componentry that helps promote a more flexible fit and better durability.

Featuring a mid-top formation, this shoe is designed with ridges of polyurethane over the toes for added protection and durability while improving flexibility in the forefoot. The supportive internal heel counter helps deliver a locked-in feel to inspire confidence when making abrupt cuts on the court.

Injected with FLYTEFOAM™ Propel technology in the midsole, this shoe delivers a bouncy response with cushioned underfoot comfort. Designed to improve stability, the integration of TWISSTRUSS™ technology also provides athletes with more agility and speed during abrupt twisting or pivoting motions.

Equipped with deeper flex grooves in the outsole to increase traction on-court, the NETBURNER BALLISTIC™ FF MT 2 supplies technology that improves flexibility and durability.

# ON COURT FOOTWEAR

# BLAST FF™ 2

The BLAST FF™ 2 model is made for indoor court sports such as handball.

This shoe offers a supportive fit, thanks to the no-sew mesh application that promotes a customized feel by adapting to the foot's natural motion. The TRUSSTIC™ component helps stabilize the foot during side-to-side and turn back motions by wrapping the rear lateral portion of the midsole, simultaneously allowing smooth transitions in between each stride. This is complemented by DYNAWRAP™ technology, composed of two supportive panels that run from the base of the laces and over the arch and midfoot to the midsole - wrapping the foot with a secure hold during abrupt turns or side-to-side movements.

Energized with FLYTEFOAM™ Propel technology in the midsole, this shoe allows better bounceback to deliver power transfer from one foot to the other on court. An excellent choice for power players looking for that magic combination of power, support, and advanced flexibility.

**FEATURES**

**TRUSSTIC™** technology
**DYNAWRAP™** technology
**FLYTEFOAM™ Propel** technology cushioning

# COURT CONTROL™ FF 2

The COURT CONTROL™ FF 2 shoe is an excellent choice for badminton players engaging in long rallies with a high jump and smash style of play.

An improved fit around the ankle helps players quickly shift directions, while the loop system in the eyelets increases midfoot support. Functional during multi-directional movements, the lateral wrap-up outsole is designed to offer excellent stability.

Thanks to the upper's PU (polyurethane) construction, this application offers a better fit with more support and flexibility. Additionally, the PGUARD™ in the medial forefoot increases durability and keeps the shoe from creating too much friction with the court.

Paired with GEL® technology in the heel to increase shock absorption, the COURT CONTROL™ FF 2 shoe is a recommended model for competitive badminton players with a baseline to net playing style.

**FEATURES**

Mesh upper
**FLYTEFOAM™** technology cushioning
**GEL®** technology cushioning

# GEL-BLADE™ 8

The GEL-BLADE™ 8 shoe is a functional choice for squash and badminton players seeking a responsive design that's effective for multi-directional movements, especially when engaging in diagonal court coverage.

We reconstructed the upper to provide a more supportive foothold. By raising the height of the heel collar and implementing no-sew overlays, we were able to increase support while still allowing the foot to move more freely.

Designers made the TPU TRUSSTIC™ component more hollow to reduce the shoe's weight, improve stability, and keep the foot from over-twisting. Familiar technologies, like the GEL® technology unit in the heel, were left intact to help athletes experience advanced shock absorption during abrupt landings and sudden stops. Additionally, the outsole's lateral side in the heel has a more rounded shape compared to the medial side, which improves cushioning during diagonal movements.

This athlete's routine diagonal court coverage was addressed in the outsole design, featuring our X GUIDANCE™ technology that creates improved flexibility and better agility during multi-directional movements. We also added a breaking pivot function in the tread pattern to help them transition more smoothly when they're switching directions.

**FEATURES**

No-sew overlays
Raised heel collar height
**TPU TRUSSTIC™** technology
**GEL®** technology cushioning
**X GUIDANCE™** technology

# GEL-TACTIC™

The GEL-TACTIC™ model is an excellent choice for club volleyball players, featuring a combination of synthetic leathers and breathable mesh vents that help resist wear and on court.

Our rearfoot GEL® technology cushioning system assists in delivering underfoot comfort, while the midfoot TRUSSTIC SYSTEM™ technology helps increases midfoot stability so players can be ready to attack the other team's defence throughout the entire match.

**FEATURES**

# GEL-ROCKET™ 10

A multi-purpose indoor court shoe, the GEL-ROCKET™ 10 offering continues to deliver excellent cushioning with improved stability and flexibility for a range of court athletes.

This shoe is designed with a flexible upper construction that can help feet bend more naturally and assist players in moving more freely. Additionally, this shoe also features synthetic leather overlays that improve support in the forefoot and help athletes make confident cuts.

Designed with a TPU TRUSSTIC™ application in the midsole, this application improves stability during quick transitions. Creating excellent comfort, the GEL® technology cushioning unit in the heel is functional for providing better shock absorption.

A wrap-up outsole and outrigger is a functional support component during side-to-side movements. In contrast, the heel wrap-up expands the contact area during the landing phase of your stride to help generate a smoother landing. Lastly, the flexible grooves in the outsole are complemented with a side grip design that improves flexibility on the court.

**FEATURES**

Mesh upper
TPU **TRUSSTIC™** midsole technology

# UPCOURT™ 4

Designed for indoor court athletes who are newer to the game, the UPCOURT™ 4 shoe delivers a combination of lightweight flexibility, support and durability.

This shoe is constructed with synthetic leather overlays that promote better support and stability during abrupt transitions and braking, while the breathable mesh panelling delivers plenty of airflow to keep feet comfortable during matches.

Lastly, the UPCOURT™ 4 shoe is designed to improve traction on court, featuring a rubber gumsole application to emphasize grip on indoor court surfaces.

**FEATURES**

Synthetic leather panelling
Breathable underlays

# AGGRESSOR™ 4

Building upon its flagship combination of durability and advanced grip, the AGGRESSOR™ 4, is the go to shoe for all things wrestling. Featuring a primarily suede upper construction that delivers excellent support throughout the match, this shoe is also complemented
with a mesh tongue for better breathability to keep feet cool. Additionally, the shoelace garage allows the laces to stay concealed and keeping from coming untied.

Engineered with our RUBBER DUOSOLE® technology in the outsole, this component lightens the overall weight of the shoe while keeping promoting better traction on mat surfaces.

**FEATURES**

**RUBBER DUOSOLE®** technology
Weight and better grip on mat surfaces
Shoelace garage

# MATBLAZER™

The MATBLAZER™ shoe is designed with the specifications of female wrestlers in mind. It's the first wrestling shoe made exclusively for women, and it features a lightweight yet supportive fit.

Its mesh construction generates strategic airflow to keep feet comfortable through the match, while the women's specific last provides better midfoot support and comfort. Additionally, the circular outsole pattern features a flexible design that delivers excellent grip and support throughout the match.

**FEATURES**

Semi-transparent mesh underlays improve breathability

# SNAPDOWN™ 3

The unisex SNAPDOWN™ 3 wrestling shoe is a competitive mid-level model from ASICS, made for those searching for quality and comfort. The full-length outsole is designed with wrestling-specific Serradial Traction Pods, which create improved flexibility and grip. The upper is made from single-layer mesh and synthetic suede, enhancing ventilation and flexibility.

This shoe might be technologically advanced, but it doesn't overlook the fundamentals. It boasts a great fit and complies with wrestling lacing rules. Lightweight and versatile, the SNAPDOWN™ 2 shoe is easy to wear and as an extra bonus, it looks so good you can take on any opponent in comfort and confidence.

**FEATURES**

Kimono inspired tongue design to promote a better foothold

# MATFLEX™ 6

Built to provide you with confidence on the mat, the ASICS unisex MATFLEX™ 6 wrestling shoe is a must-have for wrestling professionals from all backgrounds.

When you're striving to make it to the end of the match and hopefully walk away with the win, you'll need to know that your wrestling shoes will help you go the distance. The great news is that the MATFLEX™ 6 has been equipped with a California lasting for superior durability. The mesh insole also works to keep you comfortable as you push yourself (and your opponent). It allows fresh air to circulate and refresh the skin, keeping uncomfortable dampness at bay. Furthermore, an E.V.A sockliner ensconces the foot in unrivalled support, giving you that second wind that you need to gain the upper hand.

Comfort, stability and durability. The ASICS unisex MATFLEX™ 6 wrestling shoe has it all.

# SPORTSTYLE - SILVER

# JAPAN S™

The JAPAN S™ shoes are based on one of our throwback offerings from 1981. This reworked iteration is formed with a low-top silhouette that's complete with a court-inspired toe box and throwback colourways.

Mimicking the aesthetic of a retro basketball sneaker, this shoe is meant to be personalized, featuring a combination of multi-coloured ASICS® Stripes on the sides. The silhouette is also updated with a lightweight design that features cupsole tooling that offers premium comfort and improved cushioning.

The JAPAN S™ shoe's vintage basketball aesthetic is paired with iconic court-specific details inspired by footwear worn on the hardwood by basketball players in the 80s.

**FEATURES**

Based on the original 1981 model
Synthetic leather overlays
Cupsole tooling
Multi-coloured ASICS® Stripes

# GEL-QUANTUM 90™ 3

Inspired by the evolving design language of the GEL-QUANTUM 360™ 6 sneakers, the GEL-QUANTUM 90™ 3 silhouette appears with a multi-layered application that resembles the transparency trends in designer fashion and accessories.

Constructed with a combination of leather overlays and textured mesh paneling, this shoe is also structured with pull tabs on the heel and tongue to match the silhouette's tech-focused aesthetic.

Drawing design references from the functionality of our performance running lineage, the GEL-QUANTUM 90™ 3 also incorporates 90 degrees of GEL® technology cushioning in the heel for advanced comfort.

**FEATURES**

Mesh and leather upper
Performance inspired outsole
**GEL-QUANTUM 360™** shoe design language

# JAPAN S™

The JAPAN S™ shoes are based on one of our throwback offerings from 1981. This reworked iteration is formed with a low-top silhouette that's complete with a court-inspired toe box and denim accents that appear on the heel and ASICS Stripes logo.

Updated with a lightweight design that features a modified cupsole tooling, this shoe is enhanced with premium comfort and improved cushioning. Mimicking the aesthetic of a retro basketball sneaker, this heritage style is also paired with nostalgic ASICS branding, like the tiger stripes on the quarter-panels and "ASICS®" lettering at the heel.

The JAPAN S™ shoe's vintage basketball aesthetic is paired with iconic court-specific details that are inspired by footwear worn on the hardwood by basketball players in the 80s.

# ASICS CANADA
# TECHNOLOGIES

### 2D GUIDESOLE™ TECHNOLOGY
Deeply carved GUIDANCE LINE™ technology encouraging continuum of momentum from heel strike to propulsion.

### 3D SPACE CONSTRUCTION™
Structural grooves at the top of the midsole to provide softer cushioning while maintaining the stability without having to add parts or weight, for the next level of comfort while running.

### AHAR® TECHNOLOGY
ASICS High Abrasion Resistant rubber on the outersole. Helps cut down on excessive wear

### AHARPLUS™ TECHNOLOGY
AHARPLUS™ is an advanced outsole material with virtually the same lightness and grip properties as ASICS' conventional rubber, with the advantage of being three times more durable.

### AMPLIFOAM™ MIDSOLE
ASICS proprietary EVA midsole material for soft cushioning at a lower density.

### ANTI-GRAVEL TONGUE
Gusseted construction prevents debris from entering the shoe.

### ASICSGRIP™
This proprietary outsole rubber formulation provides high grip on various off-road surfaces and offers excellent durability.

### BLOWN RUBBER
A softer and lighter outsole material delivering a plush ride, flexibility and overall comfort.

### BUNION WINDOW
Soft synthetic area on the medial forefoot, reducing the risk of irritation

### DUOMAX® TECHNOLOGY
A dual-density midsole system positioned to enhance support and stability.

### DUOSOLE® TECHNOLOGY
Outsole construction offering lightweight and flexible traction durability.

### DYNAMIC DUOMAX™ TECHNOLOGY
An upgrade of the current DUOMAX® system by distributing local pressure proportionally to increase stability while providing improved comfort.

### DYNAMIC FOREFOOT CRADLE
Reinforced EVA component contoured to provide medial stability to the forefoot.

### DYNAWALL™ TECHNOLOGY
Reinforced wall providing increased stability during high intensity lateral movements.

### DYNAWRAP™
Component in the lacing system improves stability during side-to-side motions.

### ENGINEERED MESH
A technical mesh material that stretches in multiple directions, creating a glove, "snug like" fit that provides a unique balance of comfort and fit.

### EXTENDED DUOMAX® TECHNOLOGY
Extended DUOMAX® to provide maximum support and stability.

### EXTERNAL HEEL CLUTCH
An external heel counter delivering better overall fit.

### FLYTEFOAM™ BLAST TECHNOLOGY
The addition of elastomers, in combination with our proprietary blend of EVA and resin delivers an energetic and bouncy ride.

### FLYTEFOAM™ TECHNOLOGY
Its organic fibres bounce back into its original shape in the space of each stride to provide perfect cushioning from the start of your run to the finish.

### FLYTEFOAM™ PROPEL TECHNOLOGY
An energetic foam formulation delivering supreme bounceback characteristics.

### GEL® TECHNOLOGY
Shock absorbing material placed in midsole of shoe. Shape of units designed for special function.

### GENDER-SPECIFIC CUSHIONING
Softer density used in the midsole material of women's models to cater for the lighter body weight generally seen in females.

### GENDER-SPECIFIC TRUSSTIC™ TECHNOLOGY
Specially designed TRUSSTIC™ technology to cater for biomechanical differences in gender.

### GUIDANCE LINE™ TECHNOLOGY
Longitudinal groove that decouples tooling along the line of progression for enhanced gait efficiency.

### GUIDANCE TRUSSTIC™ TECHNOLOGY
GUIDANCE TRUSSTIC™ technology combines ASICS' TRUSSTIC SYSTEM™ technology and GUIDANCE LINE™ construction to provide enhanced gait efficiency and structural integrity to the midfoot.

### GUIDESOLE™ TECHNOLOGY
Provides shock absorbing landing zone lessoning fatigue, whilst the curved design improves efficiency by reducing ankle flexion.

### HEEL GRADIENT 10MM
ASICS' Football boot technology that shifts body mass forward - helping to reduce strain on lower limbs.

# ASICS CANADA
# TECHNOLOGIES

### IMPACT GUIDANCE SYSTEM® (I.G.S)
A design approach based on motion analysis conducted by the ASICS Institute of Sport Science (ISS) that optimally combines eight functions in one shoe. This certification acknowledges that our footwear meets standard performance criteria.

### INNER LOCK LACING
Asymmetrical internal straps to secure foot to platform of shoe, improving fit and stability.

### INTERNAL UPPER SUPPORT SYSTEM
An internal underlay which encloses and secures the foot to the platform.

### LACE GARAGE
Pocket enabling laces to be tucked in and unexposed.

### LATERAL FULL GROUND CONTACT
Provides stability through midfoot transition.

### MEDIAL SUPPORT PANEL
Providing additional support in the upper keeping the foot secure on platform.

### MEDIAL TRUSSTIC™ TECHNOLOGY
Reduces the weight of the sole unit while retaining the structural integrity of the shoe.

### MULTI-FUNCTION CLEATS
Cleat Pattern that allows the boot to grip and then release in a rotational direction.

### PGUARD™ TECHNOLOGY
Reinforced compound around the toebox providing increased durability and protection.

### PLUS 3™ TECHNOLOGY
3mm of added height in the rearfoot of the midsole catering for the differences in gender.

### PROPULSION TRUSSTIC™ TECHNOLOGY
Special hardened unit placed in forefoot for more efficient propulsion phase.

### REMOVABLE SOCKLINER
Sockliners mould to the shape of the foot and can be removed to accommodate a medical orthotic.

### REFLECTIVITY
Special reflective material which enhances visibility in poor light.

### ROCK PROTECTION PLATE
Provides protection against stone bruises.

### SEAMLESS CONSTRUCTION
The use of seamless materials reduces the potential for irritation and friction caused by traditional stitches and seams.

### ORTHOLITE™ LASTING
ORTHOLITE™ lasting in various degrees of density to give either comfort or stability.

### SOLYTE® MIDSOLE
Midsole material, lighter than ASICS standard EVA and SpEVA® lasting + improve cushioning & durability.

### SPEVA® LASTING
SpEVA® lasting in various degrees of density to give either comfort or stability.

### SPEVA® FOAM MIDSOLE
Lightweight bouncy midsole foam that delivers a great energetic ride underfoot.

### TRUSSTIC™ TECHNOLOGY
Moulded compound under midfoot area. Provides a controlled and contoured midsole while improving arch support and torsion stability.

### TWISTRUSS™ TECHNOLOGY
Improves arch support and torsion stability with dual-hardness system softer on lateral side.

### TWIST GEL®
Strategically positioned GEL® Brand Technology unit placed under the forefoot for cushioning and also to assist with propulsion.

### WATER RESISTANCE
Treatment on microscopic scale giving fabric water resistance or other performance characteristics.

### WET GRIP RUBBER™
This lightweight outsole material gives shoes traction on wet surfaces.

# 2021 SALES POLICIES

## ORDERS
All orders must be approved by ACA. Minimum order is $ 150.00 or two units per call. Orders under $ 150.00 or two units will carry a surcharge of $ 10.00. The initial order for a new store or new customer is $ 1500.00. Back Orders will be cancelled without notice 60 days from shipment date, unless specified by customer.

## SALES CONDITIONS
Sales are FOB point of departure (Sherbrooke). Payment terms are NET 30 days from shipping date unless otherwise communicated from the ACA credit department. Payment terms are subject to change without prior notice. Interest of 2% per month (24% per year) is charged on all overdue accounts. Discounts will be cancelled if payment terms are not respected. Deductions from payments will not be allowed unless authorized. Prices are subject to change without prior notice. Orders are invoiced at prices prevailing at time of shipment except for booking program. Booking and repeat discounts apply on back orders. Invoice includes Government Sales Tax (GST) and Provincial Sales Taxes where applicable or Harmonized Sales Tax where in effect.

## MISSING MERCHANDISE
All merchandise should be verified upon its arrival. Missing or defective merchandise should be reported directly to the transporter. ACA is not responsible for loss and damage caused in transportation. Missing merchandise in a carton caused by shipping must be reported to ACA customer service within 10 days of receipt of merchandise. Claims must include the invoice number and bill of lading number. Claims will not be accepted after 10 days.

## RETURN POLICY AND CLAIMS
ACA reserves the right to approve authentic returns due to manufacturing defects, late shipment or other legitimate reasons. All returns must be authorized in advance by ACA. Accounts must request authorization to return merchandise to ACA. Upon approval, ACA will provide a Return Authorization Number (RA#) to box. Merchandise returned without a number will be refused. Collect shipments of returned merchandise will not be accepted. Freight must be prepaid by the dealer.

## NEW MERCHANDISE
ACA reserves the right to charge a 20% restocking fee for all returns of non-defective merchandise. Collect shipments of returned merchandise will not be accepted. Freight must be prepaid by the dealer.

## BOOKING ORDER
A booking order is an order which requests delivery 150 days or more after the order is received at ACA. The applicable discount is based on the Booking Program valid at the time the order is placed. To ensure complete delivery, the order must be submitted according to the deadline outlined on A.C.A's Booking Program. Minimum of 5 pairs per SKU per delivery. Each booking order must be signed by the client or authorized personnel and should include a purchase order number.

## REPEAT ORDER
A repeat order is an order which requests delivery 7 days or more after the order is received at ACA. The applicable discount is based on the Discount Program valid at the time the order is placed. To ensure complete delivery, each order must be signed by authorized personnel and should include a purchase order number.

## ORDER CANCELLATION
Order cancellations must be completed a minimum of 35 days prior to the requested shipping date for booking orders and 5 days prior to the shipping date for Repeat orders. ACA reserves the right to affect the customer discount as a result of cancellation.

## ORDER ADJUSTMENTS
Any reduction of a booking order could result in booking discount to be cancelled. Size revision is not permitted unless authorized by ASICS CANADA CORP Sales Management. For further information, please contact your ASICS Sales Representative.

## NO TRANSSHIPMENT
Retailer will sell ASICS products only to consumers who buy the products for their own needs and not for resale. The resale or transfer of products by Retailer to another Retailer or business is strictly prohibited, and in the event of such resale or transfer, ASICS may, in it absolute discretion upon written notice to Retailer. terminate account agreement or cancel all outstanding orders and withhold shipment of future orders of products to Retailer.

# POLITIQUES DE VENTES 2021 COMMANDES

## COMMANDES
Toutes les commandes doivent être approuvées par ACA. La commande minimum est de 150,00 $ ou deux unités par appel. Les com mandes de moins de 150,00 $ ou deux unités entraîneront un supplément de 10 $. La commande initiale d'un nouveau magasin ou d'un nouveau client est de 1500 $. Les commandes les 60 jours suivant la date d'expédition, sauf in dication contraire du client.

## CONDITIONS DE VENTE
Toutes les ventes sont FOB à partir du point d'expédition. Les termes de paiement réguliers sont de NET 30 jours de la date d'expédition. Des frais mensuels de 2% (24% par année) sont ajoutés aux factures en souffrance. Un paiement en souffrance annule tout escompte. Aucune déduction de paiement ne sera acceptée à moins qu'un avis de crédit n'ait été émis à cet effet. Les prix peuvent changer sans préavis. Les marchandises sont facturées au prix courant à la date d'envoi, sauf pour les programmes de placement. L'escompte de placement et réapprovisionnement s'applique sur les articles en services (B/O). La taxe sur les produits et services (TPS) est incluse sur la facture. La taxe de vente provinciale est également incluse sur la facture en cas échéant. La taxe de vente harmonisée est appliquée dans les provinces où elle est en vigueur.

## MARCHANDISE MANQUANTE
Les marchandises doivent être vérifiées et comptées dès leur arrivée chez le client. Tout article manquant ou endommagé doit être immédiatement noté sur le reçu de livraison et communiqué au transporteur. ACA ne se tient pas responsable des pertes ou des dommages causés au cours du transport. Tout article manquant dans une boîte fermée, causé par une erreur de triage de triage ou d'emballage, doit être signifié dans les 10 jours suivant la date de réception de la marchandise. Au-delà de cette période, aucune correction ne sera considérée. Toute réclamation doit être accompagnée des numéros de facturation et d'expédition.

## POLITIQUE DE RETOURS & RÉCLAMATIONS
ACA se réserve la décision finale d'approbation de retours pour des produits défectueux, d'expéditions tardives ou toutes autres raisons légitimes. Le service à la clientèle d'ACA doit préalablement autoriser tout retour de marchandise selon la demande reçue par le détaillant. Après approbation, ACA émettra un numéro de retour (RA#) à inscrire clairement sur l'extérieur de la boîte à retourner. La marchandise retournée sans numéro de retour (RA#) ne sera pas acceptée. La marchandise doit être expédiée, port payé, par le détaillant.

## MARCHANDISE NEUVE
ACA se réserve le droit de facturer 20% de frais de remise en tablette pour un retour de marchandise non-défectueuse. La marchandise doit être expédiée, port payé, par le détaillant sous contrainte de n'être acceptée du transporteur.

## COMMANDE DE PLACEMENT (BOOKING)
Une commande de placement doit être reçue par ACA un minimum de 150 jours avant la date de livraison requise. L'escompte sera calculé selon le programme de placement en vigueur au moment de la commande. Pour assurer une livraison complète, la commande doit être placée selon l'échéancier prévu par ACA. Minimum de 5 paires par modèle par livraison. Toute commande de placement doit être signée par le client ou son employé autorisé et contenir un numéro de bon de commande. Une seule commande de placement par mois est permise par client.

## COMMANDE RÉGULIÈRE (REPEAT)
Une commande régulière doit être reçue par ACA un minimum de 7 jours ouvrables avant la date de livraison requise. Toute commande régulière doit contenir un numéro de bon de commande (P.O.) émis par le client.

## ANNULATION DE COMMANDE
Toute annulation de commande doit survenir 5 jours précédant la date de livraison pour une commande régulière, et 35 jours précédant la date de livraison pour une commande de placement. ACA se réserve le droit d'affecter l'escompte du client sur l'ensemble de ses com-mandes suite à une annulation.

## MODIFICATION DE COMMANDE
Toute réduction de commande de placement pourrait entraîner l'annulation de l'escompte de placement. La révision de taille n'est pas permise sans l'autorisation de la direction des ventes de Corporation ASICS CANADA. Pour plus de renseignements, svp contacter votre représentant des ventes ASICS.

## TRANSBORDEMENT INTERDIT
Le détaillant vendra les produits ASICS uniquement aux consommateurs qui les achètent pour leurs propres besoins et non pour les revendre. La revente ou le transfert de produits d'un détaillant à un autre détaillant ou à une autre entreprise est strictement interdite. Dans l'éventualité d'une telle revente ou d'un tel transfert, ASICS peut, selon sa discrétion et sur préavis écrit au détaillant fautif, résilier la convention du compte ou annuler toutes les commandes futures et retenir l'expédition des commandes en cours.
